Midde Mohammad Anees

Undergraduate Computer Science Student

Profile

To acquire a challenging position in an environment where I can utilize my skills and education.

Projects

Billing Software

Designed and developed a comprehensive Billing Software application (using Python) to streamline invoicing and payment processes. Collaborated with a team to gather requirements, design the system architecture, and implement key features. Utilized to create an user interface and robust backend functionality. Key features included invoice / bill generation, payment tracking, automated reminders, and reporting capabilities. Integrated the software with payment gateways to facilitate online transactions securely.

E-commerce

Contributed to the development of a dynamic E-Commerce website that transformed the online shopping experience. Collaborated with a team of designers and developers to create a visually appealing and user-friendly platform. Implemented a responsive design approach to ensure seamless functionality across various devices. Developed key features such as products management, shopping cart functionality, secure payment process.

Skills

Programming Languages

Frame Works

Java, Python

HTML, CSS, JavaScript

Education

2020 - 2024 | Nandyal, India

Technology, Computer Science and Engineering

Narayana Junior College, MPC - Mathematics Physics Chemistry

2018 – 2020 | Nandyal, India

Good Shepherd English Medium School,

2017 - 2018 | Nandyal, India

SSC - Secondary School Certificate

Certificates

Basics of Python - Infosys

Poster Presentation - RIPPLE 2k23 RGMCET

Web Design - RIPPLE 2k23 RGMCET
